/ PROJECTS

>> Weather App
Swift
Created multiple designs and functions for different Weather views. All information gathered and fetched from Open Weather API.

>> Pong
Python
Pong game remastered using turtle library. Created different functions to get the game rolling and to make it look like the real old field

>> Pokedex App
Swift
A simulation of what a pokedex app would look like. I used MVVM Design pattern and created multiple views for the different things that are shown in the Pokédex. All information was gathered and fetched from PokeDexAPI

/ EDUCATION HISTORY

>> Cornerstone ICCC
Co-op Diploma of Web Desing and App development | Currently enrolled
    Focused on App delevopment with a strong load of Java, Python and Swift
